No. 5433.

GENERAL DEPARTMENT.

Bombay Castle, 10th July, 1914.

READ—

The reports from the Commissioner in Sind and the Commissioners of Divisions on the Administration of local boards in the Bombay Presidency during the year 1912-13.

RESOLUTION.—The number of district local boards remained unchanged during the year under review, but the number of táluka local boards was increased by one by the creation of a board for the newly constituted táluka of Miro Khan in the Lárkána District.

Number of boards.

2. There was a nominal increase of nine square miles in the total area in charge of the boards due to the correction according to the revised Imperial Census tables of the figures of area in the case of the Ahmedabad, Surat and Thána Districts. The total population of the area administered by the local boards was 18,061,323.

Area and population.

3. In the Northern Division changes were made in the constitution of the táluka local boards of Dhandhuka and Ankleshvar with a view to the due observance of the prescribed proportion between official and non-official members. In the case of the Thána District Local Board it came to notice that the number of nominated salaried servants of Government, inclusive of the President, exceeded half the total number of nominated members. In order to cure this defect in the board's constitution a non-official member was nominated in the place of an official who retired so as to admit of this being done. In the Southern Division the Dhárwár Táluka Board, which had been superseded in 1910, was re-established during the year under report. In the Kolába District a seat on the Alibág Táluka Board which had remained vacant during the previous year was filled by election.

Constitution.

Triennial elections were held in the districts of Surat, Thána, Ahmednagar, East and West Khándesh, Kánara, Kolába and Ratnágiri, and in three tálukas of the Sátára District. The elections generally failed to arouse much interest, except in the Surat and Ratnágiri Districts where the seats were for the most part well-contested. In Sálsette an elective seat had to be filled by nomination for want of a candidate. Regarding the elections held in the districts of the Central Division it is reported that in no case did more than one-third of the total number of electors trouble to record their votes. The triennial terms of the district and táluka local boards of Karáchi, Hyderabad, Lárkána, Thar and Párkar and Upper Sind Frontier having expired, these boards were also reconstituted in the year under report.

Elections.

4. The total number of meetings held during the year rose from 1,320 to 1,336, of which latter number 68 were adjourned for want of quorum. The rule regarding the holding of half-yearly meetings was complied with by all the district boards. Thirteen táluka boards in the Northern Division, three in the Southern Division, and two in Sind failed to hold the minimum number of four meetings in the year. In the Central Division, and especially in East Khándesh, the táluka boards appear to be more active, and the average number of meetings per board was five. The average percentage of members attending the meetings in the Northern, Central and Southern Divisions and in Sind was respectively 58, 51·7, 53·4 and 57 as against 58, 53·9, 52·3 and 57 respectively in the previous year.

Meetings.

5. The aggregate income of the boards rose from Rs. 68,31,000 to Rs. 74,60,000, a somewhat remarkable increase.

The following statement compares the receipts under the principal heads of revenue with those of the preceding year :—

	1912-13.	1911-12.	Increase.	Decrease.
		(Rupees in	thousands.)	
Land Revenue	2,05	1,98	7	...
Provincial Rates	32,21	28,38	3,83	...
Interest	17	17	...	...
Police	1,50	1,68	...	18
Education	22,24	19,64	2,60	...
Medical	97	1,42	...	45
Scientific and other Minor Departments ...	78	88	...	10
Miscellaneous	75	98	...	23
Civil Works	13,93	13,19	74	...

6. The slight increase under the head "Land Revenue" is principally due to the increase in Sind. In the Northern Division also there was an increase mainly attributable to larger realizations from quarrying fees in the Kaira District and to the recovery of arrears of royalty from contractors. The very large increase under the head "Provincial Rates" was principally contributed by the Northern Division, in which the favourable season experienced during the year of report facilitated the recovery of arrears of local fund cess suspended in the preceding year. The other two divisions in the Presidency furnished increases of about half a lákh each, but there was a decrease under this head in the receipts from Sind.

The considerable increase under "Education" was chiefly due to the grants made by Government for opening new schools for primary education and for improving the pay of teachers in primary schools, and, in a minor degree, to the fee receipts derived from recently opened schools. The decrease under the head "Police" is attributed to the reduction in the number of impoundings of cattle due to the absence of the fodder famine which prevailed in the previous year. The decreases under the heads "Medical," "Scientific and other Minor Departments" and "Miscellaneous" call for no special remarks.

Civil Works.

In the Northern Division an extra Government contribution to the Kaira District Local Board and the inclusion of the usual grant to the Panch Maháls formerly shown under the head "XXV.—Miscellaneous" make up a large proportion of the net increase of Rs. 74,000 under this head. In the Central Division the real increase, as distinguished from a large nominal increase due to certain readjustments of accounts, amounted to Rs. 9,000, being mainly attributable to larger receipts from tolls in the Ahmednagar District and to a contribution of Rs. 4,500 from His Highness the Nizam's Government for a causeway over the Sinna river. In the Southern Division the receipts under this head show a net decrease of Rs. 21,000, all the districts except Dhárwár contributing to it. The decrease occurred mainly under "Tolls on ferries and roads" and "Contributions from Government." In Sind the decrease, which amounted to Rs. 13,000, was due in the Karáchi District to the last instalment of a ferry farm not having been recovered during the year and in the Hyderabad District to a falling off in the realizations from the ferry contract and the sale of lac and babul pods and to the fact that nothing was utilized out of the Government grant for water-supply during the year under report.

7. The incidence of income per head of population rose from 6 annas 4 pies to 6 annas 7 pies, and that of taxation from 2 annas 8 pies to 2 annas 9 pies.

8. The total expenditure of the boards amounted to Rs. 78,28,000 as against Rs. 73,63,000 in the preceding year.

The following statement exhibits the distribution of the expenditure under the several heads as compared with that of the previous year :—

	1912-1913.	1911-1912.	Increase.	Decrease.
		(Rupees in	thousands.)	
Administration	1,83	1,52	33	...
Education	30,31	27,36	2,95	...
Medical	4,74	4,31	43	...
Scientific and other Minor Departments ...	1,31	1,21	10	...
Stationery and Printing	20	18	2	...
Miscellaneous	1,17	1,01	16	...
Civil Works	36,94	37,18	...	24
Debt	1,07	45	62	...
Interest on Debt	15	3	12	...

9. The most important variations in the above figures are commented on below :—

Education.—The expenditure on education rose from Rs. 27,36,000 to Rs. 30,31,000. The increase was shared by all the divisions of the Presidency including Sind, and was mainly due to the additional sums devoted to the improvement of the pay of teachers in local board schools, the opening of new local board schools, the consequent entertainment of additional teaching staff, the purchase of furniture for schools, and grants to educational institutions. As an instance of the development which is taking place in this direction it may be mentioned that in the Southern Division 13 new schools were opened during the year in Belgaum, 18 in Bijápur, 20 in Dhárwár and nine in Kánara, in addition to four schools for girls (two in Belgaum and two in Kánara). The institution of scholarships for the children of criminal tribes was an innovation in the Dhárwár District. In Sind a novel item of expenditure was the provision of small stipends for mullahs attached to local board schools with a view to providing religious instruction and thus attracting Mahomedan pupils in greater numbers.

Medical.—There was an increase of Rs. 43,000 under this head for which Sind alone was responsible. The increase is attributable to a variety of causes, the principal among which was the distribution of quinine in malarial tracts. In the Karáchi District a sub-assistant surgeon continued to be specially employed for the purpose of organizing and watching the distribution of the drug. The Collector reports that the people now appreciate the use of quinine thoroughly and buy it freely. Efforts to popularize the use of the drug in the Lárkána District are also reported to have been attended with considerable success. Quinine was administered daily to the children in the local board schools of this district with the result that the masters reported an appreciable improvement in their general health and the regularity of their attendance. The Karáchi and the Thar and Párkar District Boards contributed Rs. 5,100 and Rs. 2,000, respectively, towards the construction of the Louise Lawrence Institute at Karáchi. The latter district also contributed Rs. 6,000 towards the construction of the Mirpur Khás municipal dispensary. In the Northern Division, the presentation by the Broach District Board of a medicine chest valued at Rs. 181 to the wife of a coast guard inspector in appreciation of her work among the sick of the neighbourhood, and the distribution of quinine and permanganate at a cost of Rs. 544, are items which are specially noticeable.

Scientific and other Minor Departments.—Under this head there was an increase of Rs. 13,000 in the Northern and Central Divisions and in Sind, counterbalanced by a decrease of Rs. 3,000 in the Southern Division. Of the total increase of Rs. 5,000 in the Northern Division the appointment of a paid secretary and staff for the District Agricultural Association of Kaira accounted for nearly half. In Broach the opening of a new veterinary dispensary at Ankleshvar entailed an extra expenditure of Rs. 1,000. The Pratt Free

Veterinary Dispensary at Godhra, which is an important institution, is reported to have done good work throughout the district. In the Central Division the increase of Rs. 4,300 under this head is chiefly due to the opening of new veterinary dispensaries at Shirpur in the West Khándesh District and Islámpur in the Sátára District, and to the contribution paid by the Sholápur District Board towards the local cattle and agricultural shows. In the Southern Division, the Collector of Kánara reports that the veterinary dispensary at Sirsi is growing popular as a result of the distribution of hand-bills and the delivery of practical lectures by the veterinary assistant at shows, etc., and of discussions with farmers at cattle fairs and religious or other assemblages.

Civil Works.—The expenditure under this head showed a net decrease of Rs. 24,000 on the preceding year's outlay of Rs. 37,18,000. The Northern and Southern Divisions and Sind contributed Rs. 5,244, Rs. 31,346 and Rs. 13,627 towards the decrease, which was to some extent counterbalanced by an increase of Rs. 24,000 in the Central Division. The expenditure under this head for the whole Presidency represents 47·2 per cent. of the entire expenditure of the boards, against 50·5 per cent. in the preceding year. The following statement compares the charges under the various sub-heads with those of the preceding year :—

		1912-13.	1911-12.	Increase.	Decrease.
			(Rupees in thousands.)		
Buildings ...	Original ...	3,51	3,08	43	...
	Repairs ...	1,17	1,11	6	...

Staging bungalows		16	15	1	...
Arboriculture		1,00	79½	20½	...
Miscellaneous		15½	14½	1	...

Communications.—The major portion of the outlay on "Civil Works" was as usual devoted to the construction and repairs of roads and bridges. In the Northern Division all the district local boards except those of Broach and Thána spent less under "Communications" than in the previous year. In Ahmedabad the small balance available during the year, coupled with the large amount of Rs. 57,000 appropriated to the paying off of Government debts, curtailed the outlay on "Civil Works" generally. The Kaira board has spent large sums on the Nadiád-Anand, Dákore-Pali and Mátar-Cambay roads still under construction, and the President reports that these roads cannot be left in their present incomplete state, as that would tend to undo what has so far been done and mean the loss of money already spent; at the same time the ordinary income of the board is insufficient to provide for their early completion. He has been advised to postpone expenditure on the last named project until the other two have been completed. It seems that the board has undertaken road-extension in excess of its financial capacity. In the Panch Maháls famine conditions during the first part of the year, combined with the general exiguity of the resources of the board of this district, hindered all further advance, although the roads there admittedly need much attention. Surat suffers likewise. Broach spent a considerable amount on metalling portions of the Derol-Wágra and Broach-Jambusar roads. In the Central Division the reduction in expenditure under "Communications" was due to the fact that the East Khándesh board spent less on original road works than in the previous year. In the Southern Division more than half the total expenditure on "Civil Works" was devoted to "Communications," the percentage rising from 59·2 to 63·4. Several road works were undertaken in the districts of Belgaum, Bijápur and Ratnágiri. A new ferry boat at Ghodgeri in Belgaum District was constructed at a cost of Rs. 1,100. In Kánara repairs were effected to four large roads at a

cost of Rs. 13,000. In Sind, eight new roads and 53 *kucha* bridges were constructed in the Karáchi, three roads and 54 such bridges in the Hyderabad, and three bridges in the Thar and Párkar Districts. The new works of construction carried out during the year included a large number of school-houses and dharmashálas, besides several medical and veterinary dispensaries.

Water-supply.—The expenditure on water-supply and water works increased by Rs. 42,500 during the year under review. In the Northern Division, the boards spent Rs. 2,22,167 on the improvement of village water-supply. In the Kaira District, owing to the failure of the monsoon, the ordinary works for the improvement of the water-supply were undertaken on a more extended scale than usual and were moreover supplemented by extensive boring operations, the object being both to prevent a water famine and to provide labour for the distressed. For the conduct of these boring operations a considerable sum was spent by the Kaira Board on the purchase of a new petrol boring plant and a Davis Calyx drill machine. The water-supply obtained was utilized both for consumption and for irrigational purposes. In Thána 94 new wells were constructed and a number of existing wells were repaired at a total cost of Rs. 46,000. In the Central Division, increased expenditure was incurred in the Ahmednagar, West Khándesh, Násik and Sholápur Districts on the improvement and extension of water-supply. In the Southern Division, 57 new wells were constructed and 103 old ones repaired in the above-ghaut districts of Belgaum, Bijápur and Dhárwár. The coast districts also spent a reasonable amount on water-supply. In Ratnágiri the existing water pipes from the Nawadi tank to Sangameshwar were renewed. In Sind, the expenditure incurred under this head was chiefly on the construction and repair of wells. In Karáchi eight, in Hyderabad four and in Sukkur seven new wells were sunk.

Arboriculture.—The increase of Rs. 20,500 under this head was principally shared by Sind (Rs. 11,410) and the Central Division (Rs. 7,809). In the former province a total of 219 miles of roads was planted with trees during the year under review, and in the Central Division increased expenditure was incurred on tree planting in the Sátára, Sholápur and Násik Districts. In the Northern Division the net increase of Rs. 1,318 under this head was contributed chiefly by Kaira and Surat. Regarding the latter district the Collector reports that special efforts are being made in this direction under the orders contained in Government Resolution, Public Works Department, No. A-2289, dated the 26th October, 1910, and the instructions given in the manual which has just been published by Government. Working plans for tree plantation are being prepared by the local boards, and considerable progress is likely to be recorded in the next administration report. In the Panch Maháls it is reported that all the important roads being either provincial or handed over to the Public Works Department, the drawing up of plans for roadside trees has been left to that department subject to money allotments by the district local board. In the Southern Division the operations under this head were confined to the Bijápur and Dhárwár Districts.

Closing balances.

10. The table appended to this Resolution exhibits the opening and closing balances of the boards of the several districts of each division. The closing balances of the boards in the Presidency aggregated Rs. 24¾ lákhs, against Rs. 26½ lákhs in the preceding year. The total closing balances of the boards in the Northern and Central Divisions and in Sind fell from Rs. 5,09,000, Rs. 8,54,000 and Rs. 6,12,000 to Rs. 4,72,000, Rs. 7,09,000, and Rs. 5,32,000 respectively, while the total for the boards in the Southern Division rose from Rs. 6,82,000 to Rs. 7,69,000. These closing balances, notwithstanding the reductions noticed above, are still much in excess of the prescribed minima, the total for Sind representing nearly ten times the amount fixed. A considerable portion of these unduly inflated balances belongs to the educational fund the spending of which is in most cases retarded by the delays incidental to the acquisition of sites and the preparation of plans for school buildings. In the Northern Division, the boards of Broach, Surat and Thána reduced their balances substantially. The presence of famine conditions in the Panch Maháls afforded the board of that district an opportunity of doing likewise of which, however, it apparently failed to take advantage.

By the payment of the last instalment of the Government debt incurred during the famine of 1899-1900 and subsequent years and the sum of Rs. 38,067 overdrawn from the Government treasury in the preceding year, the Ahmedabad Board became entirely free from Government debt after a period of 13 years' indebtedness. In the Central Division the closing balances were much in excess of the prescribed minima in all districts except Ahmednagar, of which the Collector remarks that the needs of the district are permanently greater than the district local board's resources, that the poverty of the board is not a passing phase due to famine or other temporary causes, and that the fund has managed to keep out of actual debt only by the simple process of leaving necessary and even urgent works undone. In the Southern Division the large closing balance is attributed to unexpected receipts from the one anna cess, scarcity of labour, lack of efficient establishments and consequent inability to complete works in time, and the non-utilization by the Public Works Department of the amounts placed at its disposal for certain works. Provision has, however, been made in the supplementary budget for utilizing the excess balances. The Governor in Council trusts that in the current year a determined effort will be made by the boards to utilize a substantive portion of the Rs. 18¼ lákhs which still remain unprofitably locked up in the Government treasuries.

Works committees.

11. In the Northern Division the members of works committees are generally reported to have displayed a fair amount of interest in their duty of supervising works in progress. In the Central Division the works committee of the district board of East Khándesh showed a great improvement in this respect during the year under report, and the committees of the several táluka boards in the same district also worked well. No works committee has been formed for the district board of West Khándesh as the need for one was not felt, all works there being carried out or controlled by the Executive Engineer, but the members of the works committees appointed by the táluka boards of the district did their work well on the whole. In Násik both the district and táluka local boards have appointed works committees. The works committee of the Sátára District, consisting of eleven non-official members, continued in office during the year, but it is reported to have completely neglected its functions. In the Southern Division, rules on the lines of those adopted in East Khándesh defining the duties of works committees were framed for the Belgaum and Dhárwár Districts in the preceding year, and these are reported to have worked well in the latter district. In Bijápur, works committees have been appointed in each táluka, and the members of it have been entrusted with the supervision of particular works. With a few exceptions, all the works committees in the Kánara and Kolába Districts are reported to have taken a commendable interest in their duties. In Sind, these committees are reported to have discharged their functions efficiently in every case.

General remarks.

12. Although the year's work presents no features of special importance, the general administration of the local boards was on the whole satisfactory. In Sind, these bodies are reported to have done much good work in improving the conditions of rural life, and no doubt the same may be said of the boards generally. In the Central Division the year was a bad one from an agricultural point of view over a large part of the division, and as a necessary consequence the revenues of the boards, excepting those of East Khándesh, were not so large as they might have been. In Ahmednagar, in particular, a succession of bad seasons has had a disastrous effect on the finances, already none too prosperous, of the district board. In order, however, that the district may not fall seriously behind the rest of the division and may in particular be in a position to improve the present state of its communications, Government have recently sanctioned a grant of Rs. 30,000 from provincial funds to supplement the resources of the district board. Increased grants from Government under the head of "Education" have helped the boards to add materially to the number of their schools and to effect some improvement in the pay of the teachers employed in them. But more extended communications and the improvement of the village water-supply still represent two great and general wants which

make themselves felt throughout the areas administered by the boards. In the Northern Division, the latter need received special attention during the year. Allusion has already been made to the success of the boring operations undertaken by the Agricultural Committee of Kaira, who also lent their help to private agriculturists. But this activity under one head was obtained at the expense of the other, for communications appear to have suffered from lack of funds. The Governor in Council is glad to notice further indications of a movement, referred to in last year's review, on the part of the people in the direction of helping themselves in the matter of works of purely local utility instead of remaining entirely dependent on grants from public funds. Instances of this are reported from the Surat District where villagers assisted in the construction of local board works by means of contributions in cash and labour. Even where such contributions are not forthcoming, the local people can do much to assist the boards by supervising the execution of works in their neighbourhood. With regard to this it is satisfactory to note that in the Ahmednagar and West Khándesh Districts the services of village *punchas* were utilized to advantage in connection with the execution of local works, while it is reported from the Southern Division that the system of getting petty village works carried out by voluntary labour has been successfully instituted in the Ratnágiri District. Such instances of co-operation on the part of the public in the activities of the local boards are deserving of every encouragement, for it is in the highest degree desirable to enlist the interest of the people in the work of these bodies and thereby to secure the infusion of fresh spirit and vitality into a system of administration which, so long as it continues to be entirely dependent on official interest and effort, must necessarily tend to be somewhat lacking in life and reality. Government trust, therefore, that every endeavour will be made to give this tendency a more extensive scope throughout the local boards of this Presidency.

13. Copies of the Resolution should be submitted to the Secretary of State and the Government of India and should be forwarded to all Commissioners and Collectors and to the other officers and Departments concerned.

J. L. RIEU,
Secretary to Government.

STATEMENT No. I.

Statement showing the Constitution of the District and Táluka Local Boards during the year 1912-1913.

District.	Serial Number.	Names of District and Táluka Local Boards.	Act under which constituted.	Area in Square Miles.	Population within the Area.	Number of Members on the Board.								Number of meetings held.	Average Attendance at each Meeting.			Remarks.
